YOU CAN MAKE A DIFFERENCE!

The Federal Energy Regulatory Commission (FERC) wants to hear from YOU about Spectra's Proposed Natural Gas Pipeline to run through your neighborhood.

WED., AUGUST 4, 2010
6:00 p.m. - 10:00 p.m.
Ferris High School
35 Colgate Street, Jersey City

To see the full map of the proposed route or to obtain more information, please e-mail pipeline@jcnj.org, call the Mayor's Office at 201-547-5218 or visit jerseycitynj.gov

Mayor Jerramiah T. Healy has expressed his concerns regarding Spectra Energy building a natural gas pipeline in its current form, through Jersey City. Now, the Federal Energy Regulatory Commission (FERC) wants to hear from you. This may be one of your only opportunities to let the federal government know your concerns about the Spectra natural gas pipeline, its route, and other matters related to this issue.

What is the Proposed Spectra Natural Gas Pipeline?

Spectra Energy is a Texas-based natural gas company which was awarded a contract by ConEdison to deliver natural gas to the City of New York. To do so, Spectra Energy, which currently owns a generating plant in Linden, NJ, is applying to the Federal Energy Regulatory Commission (FERC) for authorization to install pipeline from Linden to a ConEdison plant on West 14th Street in Manhattan. To accomplish this, Spectra is proposing to install a 6 1/2 mile pipeline carrying 800 psi of natural gas through Jersey City.

A full map of the proposed route can be found on the city's website at www.jerseycitynj.gov along with a letter from Mayor Healy to the Congressional delegation regarding this pipeline.

Should you be unable to attend, you may voice your concerns at efiling@ferc.gov or by logging on to www.ferc.gov using the project docket number PF10-17-000
