§ 332-49. Installation and Regulation of parking meters.

- A. In said parking meter zones, the Jersey City Parking Authority shall cause parking meters to be installed upon the curb, sidewalk or area immediately adjacent to the parking spaces provided in this Article. No parking meters shall be installed in areas where parking is prohibited pursuant to the provisions of N.J.S.A. 39:4-138. The Jersey City Parking Authority shall be responsible for the regulation, control, operation, maintenance and use of such parking meters. Each device shall be so set as to display a signal showing legal parking upon the deposit of the appropriate coin, lawful money of the United States of America, for the period of time prescribed in this Article. Each device shall be so arranged that upon the expiration of the lawful time limit, it will indicate by a proper, visible signal that the lawful parking period has expired, and in such case the right of such vehicle to occupy such space shall cease, and the operator, owner, possessor or manager thereof shall be subject to the penalties hereinafter provided.
- B. No parking meter shall be installed in any area in conflict with the provisions of N.J.S.A. 30:4-138 which prohibits vehicles to stand or park in certain locations.

§ 332-50. Operation of parking meters.

- A. Except in a period of emergency determined by an officer of the Fire or Police Department, or in compliance with the directions of a police officer or traffic control sign or signal, when any vehicle shall be parked in any parking space alongside or next to which a parking meter is located, the operator of such vehicle shall, upon entering the said parking meter space, immediately deposit or cause to be deposited in said meter such proper coin of the United States of America as is required for such parking meter and as is designated by proper directions on the meter, and when required by the directions on the meter, the operator of such vehicle, after the deposit of the proper coin, shall also set in operation the timing mechanism on such meter in accordance with directions properly appearing thereon, and failure to deposit such proper coin and to set the timing mechanism in operation when so required shall constitute a violation of this Article. Upon the deposit of such coin (and the setting of the timing mechanism in operation when so required), the parking space may be lawfully occupied by such vehicle during the period of time which has been prescribed for the part of the street in which said parking space is located, provided that any person placing a vehicle in a parking meter space adjacent to a meter which indicates that unused time has been left in the meter by the previous occupant of the space shall not be required to deposit a coin so long as his occupancy of said space does not exceed the indicated unused parking time. If said vehicle shall remain parked in any such parking space beyond the parking time limit set for such parking space and if the meter shall indicate such illegal parking, then and in that event such vehicle shall be considered as parking overtime and beyond the period of legal parking time, and such parking shall be deemed a violation of this Article.
- B. When more than one (1) parking space is required within a parking meter zone to legally park a vehicle, the operator of such vehicle shall, upon entering the parking meter spaces, immediately deposit or cause to be deposited in each meter of spaces so occupied, a proper coin of the United States as required for such parking meters.

§ 332-51. Manner of parking.

When a parking meter space is parallel with the adjacent curb or sidewalk, no person shall park or permit the parking of any vehicle in such parking space in any other position than with the foremost part

of such vehicle nearest to the parking meter; when a parking meter space is diagonal to the curb or sidewalk, no person shall park or permit the parking of any vehicle in such parking space in any other position than with the foremost part of such vehicle nearest to the parking meter; when a parking meter shall have been installed at the head of and immediately adjacent to any parking space on a municipal off-street parking lot, no person shall park or permit the parking of any vehicle in such parking space in any other position than with the foremost part of such vehicle nearest to the parking meter; provided, however, that in municipal off-street parking lots, signs shall be erected indicating that head-on parking only is permitted. In any event, a vehicle shall be parked within the lines marked on the pavement measuring such parking space.

§ 332-52. Violations.

It shall be unlawful and a violation of the provisions of this Article for any person to:

- A. Cause, allow, permit or suffer any vehicle registered in the name of or operated by such person to be parked overtime or beyond the period of legal parking time established for any parking meter zone as herein described, or to deposit in any parking meter any coin for the purpose of parking beyond the maximum legal parking time for the particular parking meter zone.
- B. Permit any vehicle to remain or be placed in any parking space adjacent to any parking meter while said meter is displaying a signal indicating that the vehicle occupying such parking space has already been parked beyond the period prescribed for such parking space.
- C. Park any vehicle across any line or marking of a parking meter space or in such position that the vehicle shall not be entirely within the area designated by such lines or markings.
- D. Deface, injure, tamper with, open or willfully break, destroy or impair the usefulness of any parking meter installed under the provisions of this Article.
- E. Deposit or cause to be deposited in any parking meter any slug, device or metal substance or other substitute for lawful coins.
- F. Park or permit the parking of any vehicle in any parking meter space where the meter does not register lawful parking.
- G. Park any vehicle in any one (1) parking meter space in an off-street parking meter zone for a period of longer than the maximum time limit as specified on the adjacent meter time dial, during the hours from 9:00 am to 9:00 pm, prevailing time.
- H. Cause, allow, suffer or permit any vehicle that shall have been parked in a parking meter space in an off-street parking meter zone or in a parking space in an off-street nonmetered parking zone, during the hours from 9:00 pm to 9:00 am, prevailing time, to remain so parked beyond the hour of 9:00 am.
- I. Park any vehicle in any parking space in an off-street nonmetered parking zone for a period longer than eight (8) hours, during the hours from 9:00 am to 9:00 pm, prevailing time.

- J. Park a vehicle other than having the front of the vehicle face a meter in any parking meter zone where the parking meter space is at right angles or diagonal to a curb, sidewalk or island.
- K. Operate a vehicle on any driveway of an off-street parking zone in a manner contrary to the restrictions as set forth for such driveway.
- L. Park a commercial vehicle with a combined weight, truck and load, in excess of four thousand (4,000) pounds, in any of the off-street parking zones (metered or nonmetered).
- M. Park a truck, tractor, trailer or a vehicle moved by human or animal power in any of the off-street parking zones (metered or nonmetered).
- N. Park a vehicle not equipped with pneumatic tires properly inflated in any of the off-street parking zones (metered or nonmetered).
- O. Wash, grease or make any repairs, except those of any emergency nature, to any vehicle, in any space in any of the off-street parking zones (metered or non-metered).

§ 332-53. Reports of violations; citations.

- A. It shall be the duty of the Police and Jersey City Parking Authority Parking Enforcement Officers, acting in accordance with instructions issued by the Chief of Police and Jersey City Parking Authority Director of Enforcement, to report:
 - (1) The number of each parking meter which indicates that the vehicle occupying the parking space adjacent to such parking meter is or has been parked in violation of any of the provisions of this Article.
 - (2) The state license number of such vehicle.
 - (3) That such vehicle is parked in violation of any of the provisions of this Article.
 - (4) Any other facts, a knowledge of which is necessary to a thorough understanding of the circumstances attending such violation.
- B. Each such Police and Parking Enforcement Officer shall also attach to such vehicle a notice to the owner thereof that such vehicle has been parked in violation of a provision of this Article, and instructing such owner to report to the Municipal Court with regard to such violation. The report and notice referred to in this Section shall bear corresponding serial numbers and all reports issued hereunder shall be accounted for by the respective police officers to the Municipal Court, and said Municipal Court shall render written reports thereof to the Municipal Council of Jersey City once a month or as often as the Board shall require same.

§ 332-54. Impounding of overtime vehicles.

Any vehicle left parked for a period exceeding two hours succeeding expiration of the maximum parking time indicated during the hours of operation specified in the space in which the vehicle is parked shall be towed, under the direction of the Jersey City Parking Authority to the contracted garage or any

other place designated by the Jersey City Parking Authority for impoundment, subject to redemption by the owner upon payment of the reasonable cost of towing and a storage charge for each day or portion thereof during which it remains in said garage or other place.

§ 332-55. Purpose of meter deposits.

The coins required to be deposited in parking meters as provided herein are hereby levied and assessed as fees to provide for the proper regulation and control of traffic upon the public streets and also the cost of supervising and regulating the parking of vehicles in the parking meter zones created thereby, and to cover the cost of the purchase, supervision, protection, inspection, installation, operation, maintenance, control and use of the parking meters described herein.

§ 332-56. Collection of coins from meters; disposition thereof.

It shall be the duty of the Jersey City Parking Authority to designate some proper person or persons to make regular collections of the moneys deposited in said meters, and it shall be the duty of such person or persons so designated to remove from the parking meters the locked containers therein containing the coins so deposited in said meters and to deliver such locked containers to the bank depository, who shall unlock them and count the funds contained in such containers and deposit such funds in the usual manner provided by law.

Each such permit shall be designated by the CEO or his or her designee to state or reflect thereon the particular residential permit parking zone as well as the license number of the motor vehicle for which it is issued. No more than one (1) parking permit shall be issued to each motor vehicle for which application is made. The CEO is authorized to issue such rules and regulations not inconsistent with this chapter governing the manner in which persons shall qualify for permits.
- E. Parking permits shall be issued to motor vehicles only upon application by the following persons:
- (1) A legal resident of the residential permit parking zone who has a motor vehicle registered in his/her name or who has a motor vehicle for his/her exclusive use and under his/her control.
 - (2) A person who owns or leases commercial property and actively engages in business activity within a residential permit parking area or employee thereof (pay stubs shall be submitted for proof of employment). However, no more than one (1) parking permit may be issued for each employee for a motor vehicle registered to or under the control of such a person.
 - (3) A person who is a current student of an educational institution located in the residential parking permit zone.
- F. Proof of residency, ownership, employment or student status shall be demonstrated in a manner determined by the CEO.
- G. Proof of motor vehicle ownership or vehicle use and control shall be demonstrated in a manner determined by the CEO.
- H. Temporary residential parking permits may be issued for vehicles which are owned, rented or under the operational control of any person who owns, leases property or attends school in the residential permit zone or used in providing services to persons or property in the residential permit zone. Temporary residential parking permits may also be issued to vehicles owned by temporary visitors who are residing in the residential permit parking zones. Such temporary residential parking permits shall have all of the rights and privileges of a regular permit. A temporary parking permit shall be valid for no more than ninety (90) days from the date of issuance. No resident of a residential permit parking zone shall be issued more than two (2) temporary parking permits at any one (1) time. A temporary residential parking permit issued to a vehicle providing services or to a vehicle owned by temporary visitors shall be considered to be a temporary permit issued to the resident of the property where the services are provided or the temporary visitors are residing.
- I. No permit shall be issued to any person who has failed to pay any City of Jersey City municipal parking fines until such fines, including any penalties thereon, are paid in full, under arrangement with the city or Parking Authority, to be paid in full or stayed or overturned by a court of competent jurisdiction.

§ 332-59. Display of permits.

The permit as issued by the Jersey City Parking Authority shall be placed unobstructed on the rear driver's side of the subject vehicle, e.g., driver's side rear window or driver's side rear bumper.

§ 332-60. Permit parking exemptions.

- A. A resident motor vehicle, employee vehicle or transient motor vehicle on which is displayed a valid parking permit as provided for herein shall be permitted to stand or be parked in the residential permit parking zone for which the permit has been issued without being limited by time restrictions or area prohibitions established pursuant to this section. Said resident motor vehicle, employee vehicle or transient motor vehicle shall not be exempt from parking restrictions or prohibitions established pursuant to authority other than this section. All other motor vehicles other than vehicles where the operator or the passenger being transported by said vehicle is physically disabled and the vehicle displays a license issued under provisions of N.J.S.A. 39:4-205, parked within a residential permit parking zone shall be subject to the time restrictions or area prohibitions adopted in this section.
- B. A resident parking permit shall not guarantee or reserve to the holder thereof an on-street parking space within the designated residential permit parking zone.

§ 332-61. Temporary residential parking permits for fire stations.

Upon the request of the Fire Chief, the CEO of the Jersey City Parking Authority or his or her designee shall issue to the officer in charge of a fire station within a residential permit parking zone, not more than five (5) temporary parking permits for the use of members transferred to the unit on an emergency basis. The Fire Chief may issue rules and regulations on the use of said temporary permits not inconsistent with this Article.

§ 332-62. Application for and duration of permit.

Each parking permit issued by the CEO of the Jersey City Parking Authority or his/her designee shall be valid for not more than one (1) year. Permits shall be renewed annually on a date to be determined by the CEO. Each application or reapplication for a parking permit shall contain information sufficient to identify the applicant, his residence address or address of real property owned or leased within a residential permit parking and the license number of the motor vehicle for which application is made and such other information that may be deemed relevant by the CEO.

§ 332-63. Permit fees.

The fee for a residential parking permit, temporary residential parking permit and transfer charge shall be as provided in Chapter 160, Fees and Charges.

- B. In determining whether a residential area is eligible for designation as a residential permit parking zone, the factors to be considered shall include but are not limited to the following:
- (1) The extent of the desire and need of the residents for residential permit parking and their willingness to bear the administrative costs in connection therewith.
 - (2) Ninety (90) percent of the legal on-street parking spaces are occupied by motor vehicles during the period proposed for parking restriction.
 - (3) Twenty (20) percent of the vehicles parking in the area during the period proposed for parking restrictions are commuter vehicles rather than resident vehicles.
 - (4) The extent to which motor vehicles registered to persons residing in the residential area cannot be accommodated by the number of available off-street parking spaces.

§ 332-65. Revocation of residential parking permits.

The CEO of the Jersey City Parking Authority is authorized to revoke the residential parking permit of any person found to be in violation of this Article and, upon written notification thereof, said person shall surrender such permit to the CEO of the Jersey City Parking Authority or his designee. Failure when so requested to surrender said permit shall constitute a violation of this Article.

Parking for the Disabled

§ 332-68. Parking for the disabled.

No person shall park a vehicle upon any of the streets or parts thereof described below, except those persons with special parking permits as described in this Article. Schedule 25 shall be incorporated within the Chapter 332 Manual—Traffic and Transportation and is available for inspection in the Division of Engineering, Traffic and Transportation and/or the Office of the City Clerk.

§ 332-69. Restricted parking zones in front of or near residences of disabled drivers.

- A. The City of Jersey City may, for good cause shown, establish by ordinance restricted parking zones in front of or near residences occupied by disabled drivers, provided that such parking is not otherwise prohibited and does not interfere with the normal flow of traffic. No restricted parking zones will be established for persons who do not transport themselves and who do not possess a valid disabled person identification card and placard or license plate issued by the State of New Jersey, Division of Motor Vehicles, pursuant to N.J.S.A. 39:4-205 and 39:4-206 unless the Municipal Council determines that:
- (1) The nondisabled driver resides in the same household as the disabled person (documentation must be provided).
 - (2) The disabled person needs to be transported at least five (5) days per week to work, school or other educational or gainful activity (documentation must be provided detailing where, when and why the disabled person is transported).
 - (3) The disabled person's disability is such that it would preclude the disabled person from waiting on the sidewalk until the nondisabled driver arrives with the car or finds parking (documentation must be provided detailing the extent of the disability).
 - (4) The parking conditions in the disabled person's immediate neighborhood warrant this exception; and
 - (5) A reasonable person would deem it highly unusual and unjust to deny a restricted parking zone even in light of the competing demands for parking spaces within a given neighborhood.
- B. No restricted parking zones will be established for applicants who have a driveway, carport, garage or off-street space available for their use unless the Municipal Council determines that:
- (1) Such driveway, garage or space cannot accommodate the driver's vehicle; or
 - (2) The driver has need of a specially equipped vehicle which cannot be reasonable accommodated by such carport, garage or space.
- C. The term "disabled" means a condition wherein a person has lost the use of one (1) or more lower limbs as a consequence of paralysis, amputation or other permanent disability or who is permanently disabled as to be unable to ambulate without the aid of an assisting device or whose ambulation is otherwise severely limited. In any case, the severity of the mobility disability shall be similar to or approximate disablement by reason of amputation.
- D. Notarized applications for the establishment of restricted parking zones shall be filed with the Jersey City Division of Engineering, Traffic and Transportation, which shall investigate each application for compliance with Subsection A. The application shall be accompanied by a medical evaluation form completed by the applicant's personal physician. The personal physician shall include a certification stating that the applicant has a mobility disability as described in Subsection 332-69 C. Application forms and medical evaluation forms can be obtained from the Division. Thereafter, the Division shall

notify the applicant when and where to report for a medical examination or, in the alternative, shall notify the applicant of the person to contact to arrange such medical examination. The examining physicians shall be selected by the Municipal Council Committee on Parking for the Disabled. The cost of examination shall be borne completely by the applicant. The applicant shall bring to the examination any and all medical or other documentation which he or she believes relevant to the applicant's medical condition. Such documentation may include, but will not be limited to X-ray reports, C.T. scan reports, cardiograms, hospital and surgical records and attending physicians' reports. If the examining physician does not possess adequate documentation to verify the applicant's eligibility under Section 332-69 C and cannot by application alone verify such eligibility, the applicant shall be rejected. An application filed by a tenant shall also be served upon the landlord.

- E. If the City Council so approves, the Municipal Engineer shall establish a restricted parking zone in front of or near the residence of the applicant and shall issue a permit which complies with N.J.S.A. 39:4-197.7. Only the motor vehicle for which a valid permit has been issued shall be parked in such zone and only when the permit is properly displayed. Only one (1) permit shall be issued to the applicant. No restricted parking zones, other than those granted by the Police Department in emergencies, shall be approved except in the manner provided in this section.
- F. No more than one (1) restricted parking space shall be granted at any one (1) building address where the building is comprised of six (6) dwelling units or less, and no more than two (2) disabled parking space shall be granted at any one (1) building address where the building is comprised of seven (7) dwelling units or more. At any address from which a disabled parking space or spaces have already been granted, any additional permits approved for that address shall bear the same permit number as exists for the space already granted. Such space or spaces may be used by anyone possessing the corresponding numbered permit on a first come, first served, basis. This provision shall apply only to applications approved or denied after the effective date of this amendment.
- G. Restricted parking spaces and permits shall be valid for two (2) years and shall be renewed thereafter in accordance with the requirements of this Article. A permit may be reviewed earlier if conditions concerning the applicant change.
- H. Any party denied a restricted parking zone shall have the opportunity to request reconsideration of such decision. A letter requesting reconsideration must be received by the Division of Engineering, Traffic and Transportation within twenty (20) days of the date of the notice of denial. The applicant will then be instructed to report for a reexamination with an examining physician and/or in appropriate cases, the committee, or its designee, may hold a hearing to reconsider any relevant evidence pertaining to the applicant's eligibility. As in the initial medical examination, costs for this reexamination shall be borne by the applicant. It shall be the applicant's responsibility to bring to the examination any and all documentation in support of his or her condition. The applicant will be notified by mail of the decision on reconsideration. No more than one (1) reconsideration will be given each applicant. Thereafter, the applicant may reapply after one (1) year has elapsed from the date of the notice of denial.
- I. Any party willfully presenting false information or documentation to the Committee or found to be abusing any parking privileges granted under this Article shall be subject to loss and/or denial of such privileges.

§ 332-70. Existing restricted parking zones.

All persons with existing restricted parking zones which do not comply with this Article are hereby canceled six (6) months after the effective date of this article. The Municipal Engineer shall establish fair and uniform procedures to assure that each holder of an existing permit is afforded an opportunity to present evidence of compliance. Such procedures shall provide that notice of cancellation be sent to all persons with existing restricted parking zones at least forty-five (45) days before the cancellation of such permit.

§ 332-71. Municipal Engineer to issue regulations establishing restricted parking spaces.

- A. The Municipal Engineer may, by regulation, establish restricted parking zones in front of schools, hospitals and other public buildings and in public parking facilities and in shopping and business districts for use by persons who have been issued special vehicle identification cards by the Division of Motor Vehicles pursuant to N.J.S.A. 39:4-205 when using a motor vehicle on which is displayed a certificate for which a special vehicle identification card has been issued.
- B. All regulations establishing restricted disabled parking spaces pursuant to Subsection A above and the location of such spaces are available for review in the Office of the City Clerk and in the Division of Engineering, Traffic and Transportation.
