In this section, please describe the timing and associated fees the Vendor is proposing for the implementation. Vendors should be sure to include all expenses associated with delivery, in addition to professional fees. The bicycle sharing program must be operational in both the City of Jersey City and the City of New York by the summer of 2015.

**It is important to note that pursuant to N.J.S.A 40A:5-16, the City is prohibited from paying for goods or services before they have been provided. Therefore, any proposals which specify payment upon contract signing will be deemed unresponsive and rejected.**

This contract will be awarded for a term of five (5) years beginning the date the contract is executed by City officials.

#### **4.1.15 Appendices/Other**

This section should include at minimum: Vendor qualifications, references and resumes.

If Vendors feel that other materials are necessary (such as promotional literature, white papers, etc) they should provide them in a separate document clearly labeled "Additional Materials" in order to adhere to the 30 page maximum guideline for proposal length. Note that these materials may or may not be reviewed by all evaluators and will not be part of the official evaluation.

#### **4.2 Required forms**

Section 12 contains forms which are required to be submitted with each proposal. These forms are statutory and/or administrative in nature and for the most part, self-explanatory.

## **SECTION 5: OVERVIEW**

### **5.1 Overall Goals**

The City is soliciting Requests for Proposals from qualified contractors or teams (Contractor) to implement, operate, maintain and publicize a highly successful and financially self-sustaining on-demand regional bicycle sharing system in Jersey City and New York City to be launched in the summer of 2015.

### **5.2 Program Details**

The program will provide a transportation alternative to motor vehicles for the City's residents, employees, and visitors. The system should utilize technology to operate a fleet of shared bicycles that may be rented from one bike sharing station and returned to another in a network of stations. The system should allow for bicycles to be accessed from self-service stations by both subscribers and walk-up renters. A subscriber should be able to register via a webpage or smartphone app (iOS, Android), submit payment data and execute a user agreement. A walk-up subscriber should be able to rent bicycles directly at the stations, including submitting credit cards and registering and executing a user agreement. Subscriptions should be available in a variety of lengths of time (e.g. annual, monthly, weekly, daily, etc.). Subscribers who return a bicycle to a station within a set period of time (minimum 30 minutes) will not be charged additional fees beyond the flat membership fee. If the technology permits subscribers to end a bike rental session outside of a designated bike share station, the subscriber shall be charged a fee, and a credit shall be offered to incentivize them to return the bicycle to a designated station. It is preferable that the system permit subscribers to temporarily secure bicycles to non-station locations while maintaining the reservation. Vendor must have the ability to provide a network of bike docking stations that implements a uniform system of automated payment, whereby users may rent publically available bicycles from automation stations, and return them to any other automated docking station throughout the City of New York and the City of Jersey City.

### **5.3 Financials**

As compensation for providing the City with the services of the system, the Contractor will collect membership/user fees, advertising and sponsorship revenues and other revenue sources, as approved by the City. The sites and designs of the stations, as well as all advertising displays will be subject to the prior approval of the City. Advertising media shall not be permitted for or on behalf of any tobacco products or any "adult" entertainment (i.e., advertisements or displays that involve nudity, partial nudity or pornographic, lewd or sexually explicit images or services, such as advertising for strip clubs, adult book stores and similar establishments). Additionally, a percentage of system profit will be shared with the City. All system equipment will be provided and owned by the Contractor, and all installation, operating and promotional responsibilities will be borne and insured by the Contractor. The Contractor must be financially solvent, and each of its members, including its employees, agents or subcontractors of any tier must be competent to

perform the services required as determined through the evaluation criteria of this RFP document.

#### **5.4 Equity**

Transportation equity will be an essential component of the Jersey City-New York City bike share system. Offerors must provide the City a plan or set of strategies for accommodating the economically disadvantaged, which may include subsidized memberships, siting of stations in low-income census blocks, offering the ability for subscribers to pay off their memberships in installments as well as lump sums, providing education, materials and outreach (including pre-launch) about the bike share system, and partnering with local bike advocacy groups and public housing authorities to organize community rides.

### **SECTION 6: BACKGROUND**

The City of Jersey City, New Jersey's second largest city with over 250,000 residents, is located directly across from New York City on the west side of the Hudson River and is inextricably linked through road and transit networks. Jersey City has a strong grassroots bicycle culture and is quickly emerging as a great bike city. For example, Jersey City began the implementation of 56 miles of bicycle facilities in the summer of 2014, giving it the most centerline miles of bicycle facilities in the state.

Jersey City's Historic Downtown neighborhoods feature many bike share-friendly characteristics, including very high population densities, the 18th largest central business district in the U.S., the most extensive network of bike lanes of any city in the state, and a robust transit network of four subway stations, seven light rail stations, and more than a half-dozen bus routes. This public transit network is closely connected to that of New York City; many of the bus lines in Jersey City cross the Hudson, and the PATH has more stops in Manhattan than it does in Jersey City. Adjacent to Jersey City's Historic Downtown is Liberty State Park – the most visited state park in New Jersey and the second most visited state park in the U.S. – featuring 1,200 acres of public space and approximately 12 miles of bike trails.

A significant portion of Jersey City's residents commute to New York City every day, and a smaller but still significant number of New York City's residents commute to Jersey City. As a result, much of the population is familiar with a bike share system, and may be members of a bikesharing system already.

## **SECTION 7: PROGRAM OBJECTIVES**

### **7.1 Primary Objectives**

The primary objectives of the Jersey City-New York City bike share program are to:

- Launch a financially self-sustaining, 24-hour, 365 day bike share program that has the ability to expand regionally in subsequent years, and is capable of meeting negotiated performance standards;
- Reduce dependency on automobiles, particularly for short trips, in turn reducing traffic congestion, vehicle emissions, and demand for parking;
- Increase transportation options for economically disadvantaged residents;
- Enhance our existing public transportation systems by adding capacity to use a public bicycle to complete the first and last leg of a trip (e.g. from the train station to the workplace or home) and enable rail, bus, and ferry commuters to make short trips without a car;
- Promote tourism through exploring the Municipalities by bicycle;
- Spur the transformation of city streets to become environments where pedestrians and bicyclists feel safe and comfortable;
- Expand the health and wellness benefits of bicycle transportation beyond traditional enthusiast groups to everyone living or working in the service area;
- Achieve measureable successful performance and public response to the system, including annual members per bikes in service, average daily uses per bike, average daily trips per

residents, projected motorist trip reductions, private buy-in to sponsorships, and engagement of significant future partners for widening the reach of the network;

- Provide a service that will result in high rates of membership satisfaction.

## **7.2 System Size and Phasing**

The City believes that a regional bike sharing program would complement the area's existing and future bike network and supplement the area's robust regional transit network. The City's vision is to implement the program in phases, with a minimum of 350 bikes in Phase I and additional bikes in later phases based on system demand and mutual agreement between the Contractor and the City.

Phase I should include a minimum of 350 bikes in Zone 1 and a number of bikes in zones 2, 3, 4, and 5 at the discretion of the bidder. (see Appendix B). Mediated review of service levels shall take place at a period of six months and again at two years after program launch. At this time, additional review of system size and station locations will also take place, at which time the system size may and/or station locations may be adjusted by mutual agreement between the Contractor and the City. Additional expansion of the regional system may take place in future phases through piggybacking agreements by neighboring jurisdictions.

The system's area of operation should be coterminous with the borders of the city.

## **SECTION 8: SCOPE OF SERVICES**

### **8.1 Bicycle Minimum Requirements**

- Minimum of 350 bikes in Jersey City (Zone 1).
- Number of bikes in Jersey City Zones 2-5 at the discretion of the bidder.
- Bicycles must be equipped with secure bike locks and appropriate safety instrumentation, such as lights, reflective strips, bells, etc.
- In order to reduce theft and vandalism, bicycles should utilize parts that are not interchangeable with regular, commercially available bikes.
- Bicycles shall have baskets or compartments for carrying typical items, such as laptop bags or groceries.
- Bicycles must be equipped with kickstands and easily adjustable saddles to accommodate users with a range of heights.
- Bicycles must be weather-proof, belt driven as an option, provide puncture-resistant tires, and have an aluminum frame or other corrosion/rust-resistant material, rustproof chains, chain-guards, mudguards, rust resistance for other components, etc.
- Space to incorporate advertising is preferred.
- Bicycles must be a 26" wheel base hybrid.

### **8.2 Station Minimum Requirements**

- Stations must be part of a network that implements a uniform system of automated payment, whereby users may rent publically available bicycles from automation stations, and return them to any other automated docking station throughout the City of New York and the City of Jersey City.
- All stations will be sited by mutual agreement between the Contractor and the City. Additional approvals may be required for stations sited on non-municipal property (e.g. any stations and/or impact on County roads would need to be reviewed by the Hudson County Engineering Department and Planning Division.)
- Bicycle station components must be theft, tamper and graffiti resistant.
- The stations must have the capacity for lighting to be added as needed to impede vandalism and facilitate nighttime use.
- All station infrastructures must be modular and moveable, requiring no excavation or trenching.
- Solar powered station terminals are preferred.
- The City is flood-prone, so stations must be outfitted with weather-proofing, including corrosion-resistant components and other allowances for high humidity and occasional heavy rains and flooding.
- Each station must provide a lighted map or signage showing locations of other stations. Space should be provided at stations for advertising.
- The station user interface must provide the capability for walk-up users to register.

### **8.3 System Minimum Requirements**

- The system must be flexible and accessible enough for modifications to pricing, time limitations, and location information to be made easily.
- The system must provide a smartphone app (iOS, Android) to guide users to nearby stations or nearby vacant docks, to notify users of their time limitations, and communicate with the operator about maintenance issues, etc.
- All registration methods must require potential users with the capability to sign liability waivers.
- System must include a method for collection of data such as, number of times each bicycle is used, average trip duration, etc. Data will not be proprietary and will be provide to the Municipalities for analysis and use, and they will reserve the right to make the data publicly available.

### **8.4 Advertising/Sponsorship/Partnerships**

Qualified vendors should have demonstrated experience in brokering sponsorships and partnerships for outdoor advertising for bike sharing systems. Additionally, Offerors should provide the City a plan for generating revenue that may include outdoor advertising, electronic advertising, station sponsorships, system-wide sponsorships, event sponsorships, and other partnerships.

### **8.5 Anticipated Contract Term**

The initial contract term will be five (5) years from the date on which a contract is signed by City officials. Respondent must identify any objections that it has to this anticipated contract term in its response to the RFP.

### ISSUANCE OF CERTIFICATE OF EMPLOYEE INFORMATION REPORT

Enclosed is your Certificate of Employee information Report (hereinafter referred to as the "Certificate" and issued based on the Employee Information Report (AA-302) form completed by a representative of your company or firm. Immediately upon receipt, this certificate should be forwarded to the person in your company or firm responsible for ensuring equal employment opportunity and/or overseeing the company or firm's contracts with public agencies. Typically, this person may be your company or firm's Human Resources Manager, Equal Employment Opportunity Officer or Contract Administrator. If you do not know to whom the certificate should be forward, kindly forward it to the head of your company or firm. Copies of the certificate should also be distributed to all facilities of your company or firm who engage in bidding on public contracts in New Jersey and who use the same federal identification number and company name. The certificate should be retained in your records until the date it expires. This is very important since a request for a duplicate/replacement certificate will result in a \$75.00 fee.

On future successful bids on public contracts, your company or firm must present a photocopy of the certificate to the public agency awarding the contract after notification of the award but prior to execution of a goods and services or professional services contract. Failure to present the certificate within the time limits prescribed may result in the awarded contract being rescinded in accordance with N.J.A.C. 17:27-4.3b.

Please be advised that this certificate has been approved only for the time periods stated on the certificate. As early as ninety (90) days prior to its expiration, the Division will forward a renewal notification. Upon the Division's receipt of a properly completed renewal application and \$150.00 application fee, it will issue a renewal certificate. In addition, representatives from the Division may conduct periodic visits and/or request additional information to monitor and evaluate the continued equal employment opportunity compliance of your company or firm. Moreover, the Division may provide your company or firm with technical assistance, as required. Please be sure to notify the Division immediately if your company's federal identification number, name or address changes.

If you have any questions, please call (609) 292-5473 and a representative will be available to assist you.
