

COVID ALERT NJ

**DOWNLOAD TO YOUR PHONE TO HELP IN
THE FIGHT AGAINST COVID-19**

COVID Alert NJ is a free and secure mobile application that anonymously alerts users if they have been in close contact with a person who has tested positive for COVID-19.

The app does not collect, use, or turn on any GPS location data.

HOW DOES COVID ALERT NJ WORK?

When your app senses a close contact (at least 6 feet for 10 minutes), your phone will exchange a secure random code with the close contact's phone. Your location and name are never disclosed.

If you test positive for COVID-19, a public health representative will call you and ask if you're willing to anonymously notify your "close contacts" by uploading your app's close contact codes.

Each day, the app will compare your list of close contact codes to the list of codes associated with positive COVID-19 app users. If there's a match you will get an Exposure Alert, along with appropriate next steps.

**DOWNLOADING THE APP TODAY
HELPS KEEP YOU AND YOUR LOVED
ONES SAFE.**

It is available to download on Android (version 6 and above) from Google Play and Apple (iOS version 13.5 and above) from the App Store.
